Startling Discovery.

The discovery by the inhabitants of a locality hitherto unvisited by the pestilent scourge of fever and ague, that it exists in their very midst, is decidedly startling. Such discoveries are made at every season, in every part of the Union. Consequently, when it is ascertained, as it invariably is at such times, through the valuable experience of some one who has been benefited and cured, that Hostetter's Stomach Bitters is a thoroughly efficacious eradicator of the malarial poison, and a means of fortifying the system against it, a feeling of more security and tranquillity reigns throughout the whole neighborhood. Besides the febrile forms of malarial disease, dumb ague and ague cake are removed by the potent action of the Bitters, to which science also gives its sanction as a remedy for rheumatism, dyspepsia, constipation, liver complaint, debility, kidney troubles, and all diseases impairing the organs of digestion and assimilation.

Is Consumption Incurable?

Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me an incurable consumptive. Began taking Dr. King's New Discovery for Consumption; am now on my third bottle, and am able to oversee the work on my farm. It the finest medicine ever made."

Jesse Middlewart, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died from lung troubles. Was given up by doctors. Am now in best of health." Try it. Sample bottle free at Hodgkinson & Co's. drug store.

The reason Why Acker's Blood Elixir is warranted, is because it is the best Blood Preparation known. It will positively cure all Blood Diseases, purifies the whole system, and thoroughly builds up the constitution. Remember, we guarantee it.

W. PINNIGER, Druggist.

Dyspepsia for Fifteen Years.

M. P. Holland, Postmaster, Rockaway Beach, Long Island, N. Y., was entirely cured of dyspepsia and rheumatism of sixteen years' standing by taking two Brandreth's Pills every night for a month. During the month he took them he gained eight pounds in weight. (d-eod)

Old And reliable Medicines are the best to depend upon. Acker's Blood Elixir has been prescribed for years for all Impurities of the Blood. In every form of Scrofulous, Syphilitic or Mercurial Diseases it is invaluable. For Rheumatism, has no equal.

W. PINNIGER, Druggist.

Electric Bitters.

This medicine is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise—a purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the liver and kidneys, will remove pimples, boils, Salt Rheum and other affections caused by impure blood; will drive malaria from the system and prevent as well cure all malarial fevers. For cure of headache, constipation and indigestion try Electric Bitters—entire satisfaction guaranteed or money refunded. Price 50cts. and $1 per bottle at Hodgkinson & Co's. drug store.

Can't Sleep Nights, is the complaint of thousands suffering from Asthma, Consumption, Coughs, etc. Did you ever try Acker's English Remedy? It is the best preparation known for all Lung Troubles, sold on a positive guarantee at 10c., 50c.

W. PINNIGER, Druggist.

Thousands of Dollars

Are spent every year by the people of this State for worthless medicines for the cure of throat and lung diseases, when we know that if they would only invest $1 in Santa Abie, the new California discovery for consumption and kindred complaints, they would in this pleasant remedy find relief. It is recommended by ministers, physicians and public speakers of the Golden State. Sold and guaranteed by Osburn & Shoemaker at $1 per bottle. Three for $2 50. The most stubborn case of Catarrh will speedily succumb to California Cat-R-Cure. Six months' treatment for $1. By mail, $1 10.

If you Would enjoy your dinner and are prevented by Dyspepsia, use Acker's Dyspepsia Tablets. They are a positive cure for Dyspepsia, Indigestion, Flatulency and Constipation. We guarantee them. 25 and 50 cents.

W. PINNIGER, Druggist.

An Absolute Cure.

The ORIGINAL ABIETINE OINTMENT is only put up in large two-ounce tin boxes, and is an absolute cure for old sores, burns, wounds, chapped hands, and skin eruptions. Will positively cure all kinds of piles. Ask for the ORIGINAL ABIETINE OINTMENT. Sold by Osburn & Shoemaker at 25 cents per box—by mail 30 cents. 1y

Acker's Blood Elixir is the only Blood Remedy guaranteed. It is a positive cure for Ulcers, Eruptions, or Syphilitic Poisoning. It purifies the whole system, and banishes all Rheumatic and Neuralgic pains. We guarantee it.

W. PINNIGER, Druggist.

Palpitation of the Heart.

Persons who suffer from occasional palpitation of the heart are often unaware that they are the victims of heart disease, and are liable to die without warning. They should banish this alarming symptom and cure the disease by using Dr. Flint's Heart Remedy. At all druggists, or J. J. Mack & Co., 9 and 11 Front st., S. F.

"HACKMETACK" a lasting and fragrant perfume. Price 25 and 50 cents. Sold by Osburn & Shoemaker.

Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason no one likes to take the medicines usually prescribed. HAMBURG FIGS were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. J. Mack & Co., proprietors S. F.

Forage and Feeding.

The question of Winter feeding, says an exchange, is one that is of vital importance to every stock raiser in Colorado to-day, for it has been proven that care and cost of keeping animals is amply repaid and always in proportion to the amount expended. It is not enough, therefore, that stock be kept alive through the Winter, but the successful stockman will aim to keep his animals in the best possible growing condition, well aware that healthy dams are more apt to have healthy young, and as he must look to the increase for his future prosperity and future herd, it will pay him to care for them before they are ready to eat hay.

The stockman of to-day has learned that cooked food and water with the chill taken off, will save enough raw food to more than pay the expense of the extra labor. They have found that saving answers well when earnings are small, and that stock when given shelter in the Winter will require far less feed than if exposed. All this means the curtailment of big range herds, the breaking up of much of the haphazard range routines and the establishment of a system that will raise more cattle, with fewer losses than the State has ever before seen. The experimental station at Fort Collins, called the Agricultural College, has lately issued "Bulletin No. 2" that gives stockmen many valuable points relative to the value of various forage plants and grasses. Thirty-four varieties of cultivated grasses have been tried, and of that number only five have failed to produce a good stand. The varieties of worth that succeed best are timothy, orchard, Kentucky blue, red top, the fescues, English and Italian rye and Hungarian Brome. The best for pasture is a mixture of several kinds of clover. Alfalfa is placed at the head of clovers, and in an experiment made from October to December, regarding its fattening qualities, it was found that alfalfa-fed animals gained 20 pounds over stock fed on red clover. The latter animals ate 1,053 pounds more of the red clover than the others did of alfalfa, and the test, although incomplete, is still interesting as showing the value of the lucerne for forage.

Sorghum, peas, corn, buckwheat, barley, wheat and millets have been tested thoroughly, and all done well, and as they are all excellent stock feed, the ranchman must have queer soil that some of them will not fit.

One common mistake of ranchmen is the feeding of too much corn to horses. If you intend fattening your horses for beef or a prize fat stock show, corn is excellent, but a corn-fed animal will never have the endurance or muscular development of one that is fed barley, wheat or oats. We bloat our horses' bellies with corn, bandage their muscles with fat, and then wonder why the little scrawny Arabian horse is their superior in all that makes a horse useful. We have yet much to learn, but one cannot take a theory and shape Nature to it, although if he will he may learn to find Nature's law and from it frame a correct method of improvement.

RIO BONITO COLONY!

LANDS FAMED FOR RICHNESS

Along the Feather River.

GROVES OF MAMMOTH OAKS OF SURPASSING BEAUTY.

Best of Soils for Oranges, Lemons, Figs, Peaches, Cherries, and all Tropical and other Fruits.

RIO BONITO COLONY LANDS ARE LOCATED IN BUTTE COUNTY, California, and along the prettiest part of Feather River. They are about eight miles south of Oroville, three miles from Gridley, and two miles from Biggs, on the Oregon and California Railroad, and seventy-three miles from Sacramento. There are growing on the lands white oak trees, some of which are thirty-five feet in circumference. The soil is a rich, sandy loam, and cannot be surpassed in productiveness. Citrus and all kinds of deciduous fruits ripen here to perfection. Rio Bonito Colony Lands are a garden spot, and are certain to be the most popular for homes of any to be found in Central California.

Testimonials on the Land by Leading Butte County Citizens and others.

I have been over your tract of land on the Feather River a hundred times. There is no better land and no better place for a colony in the world.
JOHN S. GILSON,
Real Estate Agent, Reno, Nev.

As good land as there is in Butte County. JOHN BEALL, Biggs.

As fine a piece of land as there is in this county. First-class for cereals and fruits. L. D. FREER,
Judge Superior Court, Oroville.

Have lived on this land for nearly twenty years. No more healthy climate in the world.
M. BIGGS, JR. Biggs.

It will produce, without irrigation, any of the fruits grown in any part of the State of California.
—*Biggs Argus.*

No richer land can be found in all California.—*Oroville Register.*

As fertile and valuable tract of land as there is in Butte County. Just the kind of land for fruit culture; there is none better. JACOB KRUSICK,
Gridley.

It is all splendid fruit land without irrigation. WM. SHARKEY, Biggs.

I regard your tract as the best body of land in California. GEO. W. CRUM.
Battle Mountain, Nev.

One of the finest bodies of land in the world; there is no bottom to the soil, and every inch of it is rich.
—*Oroville Mercury.*

A body of land as valuable and well adapted for all purposes of agriculture, especially fruit raising, as any land known to me. G. K. SMITH,
Banker, Biggs.

With proper cultivation it will raise all kinds of vegetables, fruits and vines.
W. A. SHIPPEE, Nelson.

My orange trees on land within a mile of yours have done magnificently. They began bearing the third year from planting, and are now hanging full of splendid golden fruit.
THOS. HUTCHINS, Gridley.

I cannot speak too highly of the merits of your soil; none better in the State for stone fruits. The oranges now growing in my front yard are of as fine flavor and the trees of as thrifty growth as I have ever seen anywhere.
JOHN S. HUTCHINS.

If your land were in fruit bearing trees, the land would be worth and would pay a good interest on an investment of $500 per acre. Our orchard of 75 acres adjoining your place, this year yielded at the rate of $300 per acre.
JOHN C. GRAY, Oroville,
JAS. HENNIGER, Gridley,
Executors Hilger's Estate.

On such land as yours, all kinds of fruit do well. A test of 75 of my apple trees showed a yield last year at the rate of 1,000 per acre. There has not been even one failure of my apple crop in 30 years. PHILLIP HEFNER,
Central House.

My orchard is 27 years old, and adjoining your land which is exactly the same as mine. The net average yield per acre, *without irrigation*, has been not less than $200 per annum. I have not lost a fruit crop in 27 years from frost or any other cause.
D. STREETER, Biggs.

I know the great capabilities of your place as a fruit ranch. In five years after planting, that land in olives would yield fully $300 per acre in oil, and will increase year after year until its annual yield will exceed $500.
JOHN C. GRAY, Dist. Att'y.

This section of Butte County is one of the best in California for fruit culture. Such land as this, if set out to fruits, would, at the end of three years, it is estimated, be worth at least $500 per acre. At this rate, twenty acres in fruit within three years would be worth $10,000. The managers will take charge of the setting out of fruit trees for purchasers of land, and at the actual cost of doing the same.

☞The land is now for sale in tracts to suit at $100 per acre, on easy terms—one-third cash; balance in one, two and three years at eight per cent. per annum.

☞Buy ticket to Biggs. Fare from San Francisco, $5.20; from Sacramento, $2.20. Stages from Oroville to Biggs pass the land daily. Send for circulars. ADDRESS,

No one better knows the condition of mining affairs in Nevada than Judge Goodwin. Now, although he is a resident of Utah, he has still a kindly feeling for the sagebrush State, and never permits an opportunity to pass when he can say a good word for the people and country among whom and in which he lived for many years. In a recent editorial in his paper the following is said of the mines of Nevada and its promised railroad facilities:

Nevada in many places has prospered in the year past. Her great lode has steadily paid in two or three of the great mines and such deposits have been uncovered and such milling facilities perfected, that the prosperity of Virginia City is assured for many years to come. Reno and the long line of agricultural valleys up and down the eastern slope, or rather at the base of the Sierra, have all been most prosperous; the ranges of the State have been more satisfactory than those of any other division of this interior basin, and most extensive additions have been made in the eastern section and one mine has been placed on a paying basis in Esmeralda county. The mines of Cortez, Austin, Taylor and Lewis have steadily paid. The population has been increased and there is more hope among the people than there has been before since the disastrous collapse of the Sierra Nevada and the failure to find large deposits in the deep levels opened up by the Union, Belcher and Potosi shafts. Of late a new hope has come to the people, a hope that a new railroad will cut their State in twain and make it possible to place the multitude of low grade mines, which are known to exist, on a paying basis. We trust that hope shall be half realized before the present year shall close. With the building of that road and the placing of it under a generous management, the State will again take her place in the front rank of ore producing regions, for under a fair adjustment Nevada is about the best silver mining region in all this world. It was there that Americans brought mining to perfection and reduced milling to a close business and scientific basis. It is true that more advance was made in Nevada in fifteen years in mining and reducing ores, where the business had to be conducted on the desert and where high labor and costly transportation were the rule, than had been made in two hundred years anywhere else in the mines of the world. From there the miners branched out that have made Utah, Idaho and Montana ring with their work, and which work has transfigured this whole great region between the two great ranges. This is not all. Those men are found scattered through Mexico, Honduras, Alaska and under the western shadows of the Andes, their skill and energy are breathing a new life into the calm which long ago settled upon those slopes. All these men cherish kindly thoughts of Nevada and not a few are watching the daily papers, with the thought uppermost in their minds that if the proposed railroad from Salt Lake City shall be started in a way that gives promise of real and speedy business, they will gravitate back and renew their work of mining where they first made a success of it. This year, or at farthest next year, Nevada will take on her old-time sovereignty among silver producing countries, the long night will have passed and the dawn will be filled with the sunlight and the warmth of a new prosperity.

THE attention of the Superintendent of the Panama railroad company has been called to the practice of throwing non-paying passengers from the trains while going at full speed, and the Superintendent has promised that the custom shall be discontinued. Since the date of his note guards have traveled on the trains, and thus the numerous conflicts of the past are now avoided. Panama is and always has been a queer country, and probably nowhere else on the face of the globe could such a custom prevail.

MOST new towns in Southern California make a feature of excluding saloons, as an inducement to families to locate. Coronado Beach goes to the other extreme. The hotel there will have the finest saloon in the world, with 20 men behind the bar.

THE great advance in the price of copper has been followed by a rapid rise in quicksilver. It looks like there would be a big mining boom on the coast this year.

The New Sleeping Cars.

The new second-class sleepers recently put on by the Southern Pacific Company will prove to be convenient and popular with travelers who cannot afford to pay a dollar and a half for a night's lodging in a first-class coach. The new sleeper is furnished with two berths to a section, the upper one folding up the same as in the other class of sleepers. There is a good mattress, pillows and quilts, all kept clean and in perfect order. The price of the berth is only fifty cents. These sleeping cars are run on trains number one and four.

NEWS OF THE DAY.

[PRESS DISPATCHES TO THE GAZETTE.]

SHORT AND SWEET.

Senator Stewart has a Plan to Keep Mongolians Out of This Country.

WASHINGTON, Jan. 30.—Senator Stewart has prepared a very short bill to enforce restrictions on Chinese immigration that he will introduce in the Senate to-morrow. Mr. Stewart fears that there is a disposition in the Senate Committee on Foreign Relations to smother Mitchell's bill providing for the abrogation of the treaty. He does not think there can be any objection to reporting his new bill immediately, and when it comes before the Senate and is open to amendment, then the abrogation of the treaty can be moved as an amendment. Stewart's bill is as follows:

Be it enacted, etc., That after ninety days from the passage of this Act no Chinese laborers shall have the right to enter the United States by reason of the fact that they were in the United States on the seventeenth day of November, 1880, but after said ninety days all Chinese laborers, without regard to previous residence in the United States shall be subject to the conditions and restrictions in the Acts of Congress relating to the entry of Chinese into the United States.

Section 2. That the certificates provided by the Act of May 2, 1882, be delivered to Chinese departing from the United States for the purpose of identification on their return, shall, after the passage of this Act, be such as the Secretary of the Treasury shall from time to time prescribe; and the Secretary of the Treasury shall have power to make all needful rules and regulations to prevent the entry into the United States of any Chinese who are denied the right so to enter by any Act of Congress. All Acts of Congress relating to the entry of Chinese into the United States are hereby amended so as to conform to this Act.

Disposition of Public Lands.

WASHINGTON, Jan. 31.—The subcommittee of the Public Lands Committee has framed a bill for the disposition of public lands. All the public domain is divided into agricultural, timber, mineral, desert and reserved mineral lands, to be disposed of as heretofore.

Timber lands are not to be sold, but the timber on every 40-acre tract shall be sold to the highest bidder, who shall be allowed six years to remove the timber. Bids shall be received sealed at the local land office in the district wherein the timber to be sold is located. After the removal of the timber the land shall be reclassified and disposed of as such lands.

The Desert Land law, as amended, requires persons desiring to enter such lands to file a map showing the proposed plan of irrigation and to be compelled to expend on such irrigation not less than $1 per acre each year for three years, and at the end of three years to file a map showing the improvement made, and one-eighth of the tract entered shall be cultivated.

Agricultural lands shall be disposed of under the Homestead laws, which are amended to prohibit any person who owns a home in any State to enter a homestead in another State or Territory, prescribes a fine of not less than $100 nor more than $1,000 on persons setting fire to or in any illegal way removing timber from public lands, and provides for the appointment of three additional land inspectors at a salary of $2,500.

A Fire in a Penitentiary.

RICHMOND, Va., Jan. 31.—The buildings of the Virginia penitentiary leased by the Davis Shoe Company of Boston and operated as a shoe factory were totaly destroyed by fire this morning, together with all the valuable machinery and stock. The loss to the shoe company is estimated at $175,000, and the loss to the State on the building is about $25,000. The company employed between three and four hundred convicts. Soon after the fire broke out the bells in the city sounded the call, and in a few minutes about 200 soldiers were on the ground to guard against any emeute of the prisoners, but everything was entirely quiet and the military were soon ordered back.

Ambitious Lamont.

NEW YORK, Jan. 31.—Considerable gossip is now heard, to the effect that Dan Lamont, the President's Private Secretray, is laying plans to secure the nomination for Governor of New York, in case Hill should be nominated for the presidency. The Democrats here say he is a very popular man, and if Governor Hill should, by any means, get out of the gubernatorial race, Lamont could secure the nomination. His friends say, in case this does not come about, Lamont would ask for a diplomatic position.

A Reduction in Wages.

MCKEESPORT, Penn., Jan. 31.—The National Tube Works Company, employing 4,000 men, have posted a notice ordering a reduction of ten per cent in the wages of the employes. If the reduction is not accepted, the firm threaten to shut down the entire establishment. Similar action has been taken by the Continental and Pennsylvania Tube Works. The men say they will not submit to any cut in wages. A general strike would throw over 6,000 men out of work in this district alone.

The Boundary Question.

OTTAWA, Jan. 31.—Prof. Dawson, of the Geological Survey Commission, has left for Washington on business connected with Alaska. Dawson was engaged last Summer in surveying the Yukon district and his departure for Washington is regarded as indicating that the question of the boundary between British Columbia and Alaska is being considered by the Commission.

To Fight Fire With Ammonia.

CALUMET, Mich., Jan. 31.—President Agassiz has decided to send twenty five tons of concentrated ammonia down the burning shafts of the Calumet and Hecla mine at once to put out the fire completely if possible.

Will Resign.

DUBLIN, Jan. 31.—Henry Joseph Gill, who represents Limerick City in Parliament, has given notice of his intention to resign his seat.

For more than forty years Ayer's Cherry Pectoral has been successfully prescribed in cases of consumption. This medicine always affords great relief in pulmonary diseases. Ask your druggist for it.

THE WASHOE INDIANS.

Governor Stevenson Forwards a Letter to Congress as to Their Condition.

EXECUTIVE DEPARTMENT,
CARSON CITY, NEVADA,
January 28, 1888.

Hons. J. P. Jones and W. M. Stewart, U. S. Senate, and Hon. William Woodburn, House of Representatives, Washington, D. C.—Gentlemen: I am moved by a deep sense of humanity, as well as duty, to appeal to you—and through you to Congress—on behalf of the Washoe Indians, who are eking out a miserable existence in this part of Nevada.

Were my words for you alone, it would be useless to use many in explaining their almost helpless and destitute condition, as you have seen respecting them all that I have.

They are so few in number—only from 500 to 700, all told—as not to be treated as a tribe, only as a nomadic band, by other Indians and by the whites. They have no reservation; no lands in any sense; no horses (they are not permitted by the Piutes that boon); no agricultural implements; in fact, no means of producing anything on which to subsist, but to that end must look to the pine-nut tree and to hunting and fishing. If they get aught besides, it is the offering of unorganized individual charity. The territory they are permitted to rove over and live upon is pretty well settled up by white people, so that the pine-nut will soon be extinct, and nothing left for them but rabbits and fish. The General Government neither feeds, clothes nor educates them, few and feeble as they are, while it opens its vaults and school-houses to tribes more powerful and less needy.

Permit me to call your attention to the following terse and truthful excerpt from a letter by Hon. C. S. Young, ex-Superintendent of Public Instruction for this State, to Hon. John D. C. Atkins, United States Commissioner of Indian Affairs: "For the Washoes, a tribe(?) of Indians located chiefly in Carson Valley, the National Government does not provide either a reservation or a school; does not expend one dollar per annum in care of them or for their civilization. There is no apparent reason why these friendly Indians should be entirely neglected by the nation in the distribution of favors. They could be taught the principles underlying our civilization, but as it is, without lands, without farming implements or the means to secure them, without any kind of an education, without any encouragement whatever, these Washoes are public beneficiaries — parasites on the granaries of the farmers and the pantries of the townspeople."

Congress should at least feed and clothe them, and to do so with certainty it seems to me that the means to do so should be placed in the hands of some perfectly reliable party or parties who would properly apply the same. And as the Piutes are bitter enemies of the Washoes, it would be well for the agent of the former to have nothing to do with aid extended to the latter.

Allow me to solicit that you urge this matter upon the early attention of Congress, and to hope that, for the sake of humanity, your efforts will be crowned with success.

Very truly, your obedient servant,
C. C. STEVENSON, Governor.

A Woman's Way.

A lady residing on the Virginia road, stepped into her buggy on Virginia street this morning, and taking up the reins, talked to her horse like this: "Get up!" "Go on, Billy!" "Get up! Get up!" "Billy, why don't you go?" you horrid brute!" "What a stupid!" The horse, despite all this, stood stark still. Then his mistress spoke to a gentleman who had been watching her. 'Can you make this animal start, sir?" He politely bowed, came forward, unhitched the horse and patted him on the neck. Then the animal started.

How an Item Travels.

About nine months ago an article was published in the Dayton *News-Reporter*, now defunct, giving an imaginary account of the actions of a cowboy at a ball. Gordon A. Rice, a Reno boy, was the author of it, but according to the *Silver State* of the 28th inst., its authorship is claimed by "a veracious Texas paper." After traveling all over the country the article wends its way back to Nevada. The *Silver State* having copied it, it will no doubt again go the rounds.

The Nellie Boyd Troupe.

The Sacramento *Bee* has the following to say of the Nellie Boyd troupe, which will appear at the theater February 6th:

"Passion's Slave" drew a full house last night and was well presented. Nellie Boyd sustained her reputation as a truthful impersonator. Miss Boyd is one of the finest actresses on our boards, and the grace and dignity with which she takes so many and such diverse parts, shows a scope and versatility of histrionic talent which few possess. The whole play was well rendered throughout, and gave satisfaction to all present.

OVER THE RIDGE.

The Hydraulic and Quartz Mines of Nevada County, Cal.

Occasional Correspondence GAZETTE.]

NORTH BLOOMFIELD, Cal.,
January 29, 1888.

EDITOR GAZETTE—My, how it rains! There has been but one fair day for over six weeks, and I, for one, have got about enough of this good thing at this dose. The cold wave did not neglect us, but the mercury only managed to get down to zero, but that beat any former effort in that line since the camp was settled by white folks. The prospect is that we shall have a fine crop of apples, as the cold has destroyed large numbers of the insects that prey on fruit. How the orange trees have fared in Nevada county's "citrus belt" (a very small belt, by the way,) I have not heard.

MINING.

Everything in the way of gravel mining has come to a stand in this region for want of water, and having too much law. The immense deposits owned by the great mining companies of this county contain millions of dollars in shining gold, but Judge Sawyer says it cannot be taken out, and so far his word is the law. I notice there is but little interest felt in the question by those who live about the mines. I have heard men say time and again "What do I care about this hydraulic question? The owners of the mines have ground wages down to starvation rates and would work Chinamen if they dared." There must be a better feeling between mine-owners and the miners who live about the mines before there will be unity of action. The owners don't see this; they are rich men, who evidently believe their personal interests alone should be cared for. The mining regions have never sent a man to Congress to care for their interests, and on every hand is a house divided against itself, and will so remain until mine-owners show their employes that they have some thought for the comfort of those who toil.

QUARTZ.

In the meantime the idle men are scattered all over the hills and down in the canyons of Nevada county hunting for gold-bearing quartz and the promise is that a great number of fine lodes will be developed this year. In the metamorphic slate between the South and Middle Yuba rivers a number of lodes have been discovered within the past six months, and every one on which work has been done, so far as known, gives promise of great value. The lodes are not large—running from two to four feet thick—but the ore is of excellent quality and the deep canyons give drainage and facility for working that adds very much to the value of the mines. Besides this, the old water ditches will furnish abundant water power for running mills. Small mills, built and owned by the miners, will be the order here.

I have not heard of a mine being offered for sale in this section for a long time. Offers of interests for machinery are common, but in every case the miner refuses to give up his control of the property. "Capital can go to—Los Angeles," the miner says. Cheap mills and improved methods have made the miner independent.

GRANITEVILLE.

Twelve miles up the ridge is the old town of Eureka, its glory long since departed. It has been rechristened Graniteville an now promises to be a lively camp the coming Summer. A number of fine mines are being opened and it is expected that several hundred men will be employed as soon as the season opens. Snow shoes alone take one in or out of them at present. SQUID.

On a Prospecting Tour.

Ben. D. Gardner and his brother Ed. Gardner have been visiting Reno for a few days and are the guests of Harry Davis of the Depot Hotel. The Gardner brothers and Harry were schoolmates back in Iowa. Mr. Ben Gardner is now a resident of White Sulphur Springs, Montana, and is connected with the *Daily Independent* of Helena. His brother is from Indianola, Iowa. Both young men have been prospecting the country throughout Southern California, where Ed Gardner thought of locating, but not finding it to suit him he concluded to investigate further, and is now looking about this section. Yesterday, in company with Harry Davis, the brothers visited the Comstock and will be back here probably to-morrow.

A Proposed Outrage.

Secretary of War Endicott is thinking seriously of abandoning Fort McDermitt, and assigns as a reason therefor that the fort is 78 miles from the railroad. It might with much more propriety be assigned as a reason for maintaining it that it is 78 miles from civilization.

All Humboldt county is in arms against the proposition, and the *Silver State* says that General O. O. Howard, who advocates the discontinuance, did not dare go beyond the military lines when he was there a few years ago fighting Indians without a strong military escort.

A Heavy Loss of Stock.

Twenty-five thousand head of cattle belonging to Taylor, Crocker & Buford, on the Promontory range, Utah Territory, a few miles west of Ogden, are suffering greatly from lack of feed and cold weather. Hundreds perished during the recent cold spell, and it is expected that 10,000 will be lost by Spring.

Stricken with Paralysis.

Isaac Stith, a well-known Nevadan, who has been living in Esmeralda county or at Lake Tahoe for a number of years past, was stricken with paralysis last Saturday at his residence in Reno and but little hope is expressed for his recovery.

A RAILROAD BOOM.

Three Lines to Span Nevada—The Possibilities of the Future.

The Eureka *Sentinel* publishes the following, which will be read with interest:

It is within the range of extreme probability that three new new lines of railroad will cross Nevada from East to West within the next three years. A fourth is almost equally certain, but three seems as good as assured. The fourth, which we regard as least probable, is the much-talked of Salt Lake and Los Angeles road. Unless this can be hitched on to one of the half-completed transcontinental lines, thus forming a link in a through connection to the Pacific Coast it will not be built. As a purely local and independent enterprise, we have no faith in it. But we do have great faith in at least three of the eastern lines seeking an outlet on the Pacific ocean. First of all comes the C. B. & Q. This company has a dream of an air line from Chicago to San Francisco. It is already completed to Denver. An air line to San Francisco would take it through the very heart of Nevada, and within 20 miles of Eureka, to the southward. The C. B. & Q. is one of the strongest corporations in America. From Denver westward it is closely allied with the D. & R. G. It is already known that the D. & R. G. is to widen its track to a broad gauge to Salt Lake the coming season. That this is in the interest of the C. B. & Q. hardly admits of a doubt. The continuance of the line west from Salt Lake has become an absolute necessity. The experience of last year has demonstrated that the Central Pacific cannot begin to handle all the freights over the western division. There have been freight blockades at all points west from Ogden. So it becomes an imperative necessity for the C. B. & Q. and the D. & R. G. to pool their issues and go on through to the coast. They are forced to do it, whether they like the undertaking or not. This is new road No. 1 to cross Nevada. No. 2 is the Utah Central. The *Sentinel* has private and exclusive information that this Utah road will make a dash in early Spring from Frisco westward. Like the C. B. &. Q., it will pierce the heart of Central Nevada. No. 3 will go north of the Central Pacific, somewhere in the vicinity of Tuscarora, and thence through Beckwith Pass in the Sierra Nevada mountains, and down the Feather river to the Sacramento valley. This latter line across our State will form the Pacific Coast division of the Northwestern road now completed from Chicago to a point in Wyoming Territory, north and west of Cheyenne. Year by year it is making westward. That it is destined for the Pacific ocean does not admit of a doubt. There may be other roads that will pass our borders in the near future also, but regarding the construction of these lines that we have described, there can hardly be any sort of question. They are bound to come, and that too within the next three years. It requires no gift of prophecy to foretell that Nevada will be one of the brightest stars in the constellation when thus gridironed with transcontinental railways.

A clear skin adds to the beauty of a fine face, and often lends a charm to homeliness. To beautify your complexion you should purify your blood with Ayer's Sarsaparilla. As a tonic and alterative medicine, it has no equal. Price, $1. Six bottles, $5.

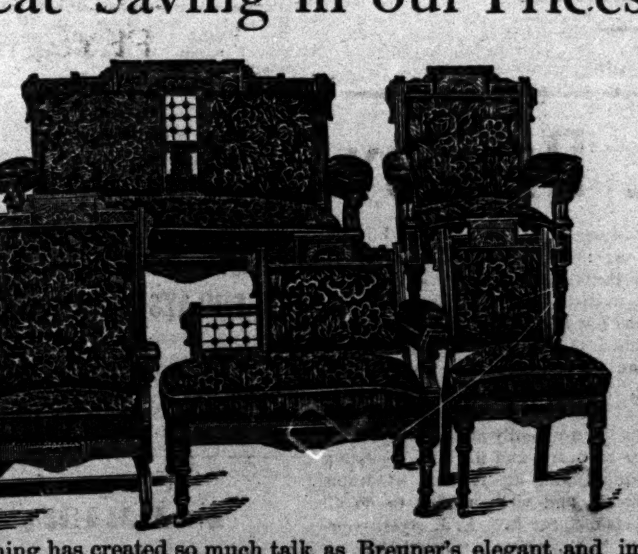
Great Saving in our Prices.



Nothing has created so much talk as Breuner's elegant and immense line of Bedroom and Parlor Furniture. Suites for two, three, four, five and six hundred dollars. We can furnish you with a suite—the finest in the land or the cheapest to be had. Our trade has demanded that we carry the richest lines, and to-day we are shipping goods to San Francisco, Oakland and other parts of the State. San Francisco merchants cannot compete with us, as their store rents and other expenses are enormously high Everybody admits that we sell the cheapest, and everyone who visits our stores says our assortment is as elegant as it is large.

If you desire anything in our line and cannot visit our stores, write us stating articles you want and will send you photographs and prices, and give you the same satisfaction as if you were selecting in our stores. Send for photograph of our $20.00 bedroom suite.

Country and City Properties in Nevada and California.

For Sale.

$30,000. Mrs. Howard offers her ranch for sale. The ranch is on the Virginia road, the most delightful of all the country roads in Nevada. It is located eight miles from Reno and in a fertile agricultural section. The ranch consists of about 900 acres and a valuable water right. The ranch has long had the reputation of being one of the most productive of its size of all the ranches in the Truckee Meadows. This year it has produced 800 tons of hay, pasture for 200 head of stock, vegetables and other products in value about $9000. By the expenditure of a few hundred dollars the ranch could be made to be even much more productive than it is at present. The soil is admirably adapted to the raising of alfalfa, stock and vegetables. It has an excellent house, barn and other buildings, a good orchard and other improvements. Price, $30,000; ¼ cash and the remainder in five equal annual installments. Interest at 8 per cent. per annum.

$13,650. A. Banta's ranch located about five miles southeast from Reno is offered for sale. It consists of 455 acres, which will be sold at $30 per acre, or for $13,650 and on easy terms of payment. There is on the place a good house of eight rooms, two barns and other buildings. The place has plenty of fine irrigating water and as many as fifty springs of excellent drinking water. The ranch yielded this year 350 tons of hay, and pasture valued at not less than $1200. The total valuation of this year's yield is not less than $3,650, and some one year's yield has amounted to as much as $5,000. As the ranch consists chiefly of pasture and meadow land, the expense of running the place is exceedingly small. The ranch is especially desirable as a stock range and for this purpose would yield a handsome profit on the amount invested.

FOR SALE—Lots 10, 11, and 12, in Block, 4, Marsh's Addition, south side of river, very desirable location. House of two rooms (hard finished) and shed; lots cleared; size, each 50 by 140. A bargain.

$300. Lot 50x175 feet, on the Virginia road, short distance from court house; a very desirable location, and the best bargain in Reno for the price. Perfect title; ditch flows through the property.

80 ACRES OF LAND under improvement; good buildings and fence; 70 acres in alfalfa; choice orchard—600 bearing fruit trees; 5,000 nursery trees; good well. Situated ¾ mile from the C.P. railroad depot, Reno.

FOR SALE—House and lot on east side of Virginia street, one door north of Fourth street; lot 50 by 140; house of five rooms. A very desirable locality.

FOR SALE—Lot 129.5 ft. by 140 ft., on east side of Virginia street, opposite residence of B. F. Leete. This is a very desirable piece of property.

40 ACRES OF LAND; 26 acres in alfalfa; 1,750 forest trees, all under fence. Situated ¾ mile from railroad depot, Reno. Rolling land, beautifully situated for residences.

560 ACRES; 100 acres enclosed by a substantial fence; 90 acres under fine cultivation; balance wild land—good for pasturage. Will cut 250 tons alfalfa this year. Two acres of young and bearing orchard; good seed land.

Perfect Title to 56 inches of Water.

New two-story house of three rooms hard-finished; good barn. Situated 3½ miles from Reno.

Price, $6,000—$2,000 down, balance on time at reasonable interest.

3,000 ACRES under substantial fence. ABUNDANCE OF WATER FOR IRRIGATION.

300 acres in wheat, barley and alfalfa.

Controls an immense outside range for cattle or sheep.

$2,000 WORTH OF HORSES, MARES AND COLTS.

All kinds of farming utensils.

Machinery, Wagons, blacksmith shop, etc. etc.

Plenty of water close by.

Ranch lies 20 miles south of Austin.

This would make one of the best stock ranges in the state.

Price, $15,000. Easy terms of payment given.

Also several large properties in Truckee meadows; properties at Stockton, San Jose, San Francisco and Alameda.

Mines bought and sold. The firm has numerous correspondents who are dealers in mining property.

A WONDERFUL REMEDY.

The value of Ayer's Cherry Pectoral, in the protection it affords from the dangers of pulmonary disorders, cannot be overestimated. Mr. C. K. Philips, Pittsburg, Pa., writes: "About three years ago I had severe Laryngitis, which resulted in chronic hoarseness. By the use of Ayer's Cherry Pectoral I have since entirely regained my health." Mr. Henry Russell, Excelsior Printing Co., New York, writes: "Influenza became epidemic in my neighborhood. Several members of my family suffered severely with it, all of whom took Ayer's Cherry Pectoral, and were cured by it in a few days. It is a wonderful medicine for Influenza. Too much cannot be said in its favor." E. M. Sargent, 41 Andover st., Lowell, Mass., says: "I commenced using Ayer's Cherry Pectoral about the year 1842, as a family medicine, for Coughs and Colds, and have always kept it in my house since that time. I consider it the best remedy that can be had for these complaints." Dr. J. B. Robertson, Clayton, N. C., writes: "I have used Ayer's Cherry Pectoral, in my family and practice, for a number of years, and have no hesitation in recommending it. It is an admirable preparation, and well-qualified to do all that is claimed for it." E. J. Styers, Germanton, N. C., writes: "Ayer's Cherry Pectoral is the best Cough preparation I ever saw. It gives instant relief."

Ayer's Cherry Pectoral

has cured a Cough in a few doses. It always relieves irritation of the lungs or throat, and arrests the tendency to inflammation. It strikes at the foundation of all Pulmonary diseases, is without a rival as an expectorant, and is a sure cure for the most obstinate Coughs and Colds. L. Garrett, Texana, Texas, writes: "I have used Ayer's Cherry Pectoral in my family for twenty years. For throat and lung diseases, I consider it a wonderful remedy."

Give Them a Chance!

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not be there your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed us, you may depend upon.   eow

HEART DISEASE

Headache. DR. FLINT'S HEART REMEDY is one of the best remedies known for headache, which is often dependent upon disease of the heart, sometimes upon nervous disease, and sometimes upon derangement of the circulation.

Convulsions. DR. FLINT'S HEART REMEDY at once causes convulsions to cease, and by a proper use of the medicine will prevent their recurrence, either in children or adults.

Delirium. DR. FLINT'S HEART REMEDY, when given in cases of delirium, calms the excited brain, and by securing rest for the sufferer, promotes the restoration of health.

A Double Influence. DR. FLINT'S HEART REMEDY is a medicine which will cure cases of Neuralgia which other remedies have failed to reach, as it exercises a double influence, in one case over the circulation, and in the other over the nerves.

Brands and the Moon.

I have no news, said a stockman to a Dallas News reporter yesterday, as interviewer and interviewed shivered in the cold, but I can give you a few pointers that are not current information in reference to branding, which is generally practiced all over the western country and in all other countries where herds are large, and fences few and far between. You have, no doubt, noticed the difference in the size of the brands made with the same iron and in the same herds, some of them being no larger than the iron, while others are several times as large and extend all over the side of the brute and amount to ugly, unsightly disfigurements. As all brands in the same herd are made with the same iron, and usually on calves of nearly the same age, there must be a reason why some of the scars never grow larger than the point on the iron and why others by the time the animal attains its growth be from 50 to 150 per cent. larger. Now from large experience and extensive observation, I am prepared to say that the difference is ascribable to the influence of the moon. I think there is no question but that when cattle are branded in the dark of the moon, the brand will never, no matter how large the animal may grow, get larger than the dimensions of the iron used. On the other hand, I am equally certain that when calves are branded in the light of the moon the scar will spread, and the lighter the moon the greater will be the spread. Some time ago there was a lawsuit involving the ownership of a lot of cattle in a western county. I was a witness in the case. The plaintiff sued for possession of a portion of cattle in defendant's herds. The brands of the parties to the suit were the same, with the exception that plaintiff's was the larger. There was great disparity in the size of the scars on defendant's cattle and in those having the large scars plaintiff laid claim, on the ground that if they had been branded with the small iron used by defendant the scars never would, could or should have been so large. The defense was that all of defendant's cattle were branded with the same iron, the branding season extending over a period of several weeks, and that owing to the well-known influence of the moon, some of the scars had remained of the size of the iron, while others had grown to several times its size. Expert testimony was then introduced, and thirteen men swore that the moon does influence the size of the scar produced by a branding iron. The plaintiff was, of course, cast, and the influence of the moon on branding thereby received judicial recognition. C. W. Merchant, who is now flat on his back with a broken leg at Abilene, says that he disfigured hundreds of horses before he ascertained that it was necessary to consult the moon before branding his colts. But for several years past he has done his branding in the dark of the moon, and when he goes to sell his horses purchasers no more object to the ugly scars on them.

INFANTILE
SKIN DISEASES

Our oldest child, now six years of age, when an infant six months old was attacked with a virulent, malignant skin disease. All ordinary remedies failing, we called our family physician, who attempted to cure it; but it spread with almost incredible rapidity, until the lower portion of the little fellow's person, from the middle of his back down to his knees, was one solid rash, ugly, painful, blotched, and malicious. We had no rest at night, no peace by day. Finally, we were advised to try the CUTICURA REMEDIES. The effect was simply marvellous. In three or four weeks a complete cure was wrought, leaving the little fellow's person as white and healthy as though he had never been attacked. In my opinion your valuable remedies saved his life, and to-day he is a strong, healthy child, perfectly well, no repetition of the disease having ever occurred.

THOUSANDS OF CHILDREN

Are born into the world every day with some eczematous affection, such as milk crust, scall head, scurf, or dandruff, sure to develop into an agonizing eczema, the itching, burning, and disfiguration of which make life a prolonged torture unless properly treated.

A warm bath with CUTICURA SOAP, an exquisite Skin Beautifier, and a single application of CUTICURA, the Great Skin Cure, with a little CUTICURA RESOLVENT, the New Blood Purifier, are often sufficient to arrest the progress of the disease, and point to a speedy and permanent cure.

Hence, no mother who loves her children, who takes pride in their beauty, purity, and health; and in bestowing upon them a child's greatest inheritance—a skin without a blemish, and a body nourished by pure blood—should fail to make trial of the CUTICURA REMEDIES.

BABY'S Skin and Scalp preserved and beautified by CUTICURA MEDICATED SOAP.

Hussey's Remedy

......FOR......

BLACKLEG IN CATTLE.

I AM making a tour of this State introducing the above-named Remedy.

It is infallible; I have the proofs. I guarantee my work. I treat cattle in herds that are dying, and warrant them for fifty cents a head never to die from the disease.

I have been treating cattle in California for nearly three years successfully and have sold the Remedy to most of the principal stockmen in the State.

I am prepared to furnish satisfactory proofs of the efficacy of my invention
